

Bonnie

Born 3rd Aug 2016 / Arrived May 2021

Bonnie has spent a lot of her life going from pillar to post unfortunately and really needs someone to invest in her and genuinely be her forever person.

After spending several months in kennels with us then several months in foster during lockdown she was adopted.

Unfortunately due to family circumstances she ended up being passed around family members, unbeknown to us, before landing back in kennels due to sleep startle when on the family sofa.

Bonnie is still only coming up 5 despite all this and all we really want for her is someone who knows greyhounds and their quirks and who can engage with her and teach her the basics of being a good pet; we know she can do it. Bonnie can also live with other dogs although of course they would need to meet beforehand.

If you could be that person, please contact the team at the kennels on 07783 367032 (please text if you can't get through) or email info@retiredgreyhoundscanterbury.co.uk

Harry

Born 20th Sept 2018 / Arrived April 2021

We really thought young Harry had found his forever home but unfortunately he had a bad experience on stairs and damaged his toe which made him fearful of stairs and upset the relationship he had with his owner - as he was living in a flat it meant there was no real option other than

his coming back to us.

Harry is looking for a confident owner who will be able to kindly take charge of him, make "how to be a good boy" rules for him and consistently apply them. We believe him to be a good learner as he's quite a "doing" dog who should enjoy being rewarded.

Harry's toe is now fully healed and this young lad, not yet 3, now needs to start over and build a relationship with a forever owner.

If you think you could fulfil that teacher role with Harry as well as loving him loads, please contact the team at the kennels on 07783 367032 (please text if you can't get through) or email

Harriet

Born 1st May 2017 / Arrived December 2020

Harriet's story is a little different to some of our other special needs hounds.

This pretty girl came to us just before Christmas with some cuts on her feet and legs. Unfortunately they didn't want to heal straight away and she ended up with a slower healing (than normal) infection which caused both her front feet to swell up

Harriet has now had various medical tests (bloods, skin scrapes and biopsies) which have all come back clear. Her last remaining issue is a corn on her bad toe which the vet feels will be best dealt with by amputating the toe given her history. This will of course be done at our expense when we can get an appointment with our specialist vet.

Throughout all of this she has remained sweet natured and calm, although the stress has made her rather scruffy (!) but we are sure she'll scrub up beautifully once established in her forever home.

If Harriet's history doesn't put you off or you would like further information, then please contact the team at the kennels on 07783 367032

(please text if you can't get through) or email info@retiredgreyhoundscanterbury.co.uk; they will be happy to chat and answer any questions you may have.
